

Seung-Yoon Back

Ph.D. · Atmospheric & Climate Dynamics

Postdoctoral Researcher, Department of the Geophysical Sciences, The University of Chicago
5734 S. Ellis Ave. 433, Chicago, IL 60637, USA · syback@uchicago.edu

EDUCATION

Ph.D., Earth and Environmental Sciences

Sep 2020 – Aug 2025

School of Earth and Environmental Sciences, Seoul National University

Thesis: Modulation of MJO Characteristics by the Tropospheric Moisture Distribution and Stratospheric Wind

Advisor: Prof. Seok-Woo Son · Co-advisor: Prof. Daehyun Kim

M.Sc., Earth and Environmental Sciences

Mar 2018 – Feb 2020

School of Earth and Environmental Sciences, Seoul National University

Thesis: QBO Influence on MJO Convection in a Numerical Weather Prediction Model

Advisor: Prof. Seok-Woo Son

B.Sc., Earth Science Education

Mar 2014 – Feb 2018

Department of Earth Science Education, Seoul National University, Korea

PROFESSIONAL APPOINTMENTS

Postdoctoral Researcher

Sep 2025 – Present

Department of the Geophysical Sciences, The University of Chicago

Researcher

Sep 2023 – Aug 2025

Research Institute of Basic Sciences, Seoul National University

HONORS & AWARDS

- Best Doctoral Thesis Award, Korean Meteorological Society (Nov 2025)
- Best Doctoral Thesis Award, College of Natural Sciences, Seoul National University (Aug 2025)
- Best Student Poster Presentation Award, Korean Meteorological Society (Apr 2022)
- Outstanding Paper Award, Korean Society of Climate Change Research (Sep 2018) — *Classification of Heat Wave Events in Seoul Using a Self-Organizing Map*

RESEARCH INTERESTS

Atmospheric and climate dynamics, with emphasis on **QBO dynamics**, **MJO dynamics**, and **stratosphere–troposphere coupling**.

PUBLICATIONS

* corresponding author

SELECTED PRESENTATIONS

MJO Diversity across Timescales: Observations and Model Simulations <i>Seoul National University, Seoul, Korea</i> [Oral]	Sep 2025
Interseasonal Difference in MJO Propagation during the Extended Boreal Winter <i>BACO25, Pusan, Korea</i> [Oral]	Jul 2025
Modulation of MJO Characteristics by the Tropospheric Moisture Distribution <i>Korea Institute of Science and Technology, Seoul, Korea</i> [Oral, invited]	Jul 2025
QBO–MJO Connection in a Hierarchy of Models <i>Pukyong National University, Pusan, Korea</i> [Oral, invited]	Oct 2024
MJO Diversity in CMIP6 Models <i>Asia-Oceania Geosciences Society, Pyeongchang, Korea</i> [Oral]	Jun 2024
Seasonality of MJO Diversity <i>Asia-Oceania Geosciences Society, Pyeongchang, Korea</i> [Poster]	Jun 2024
Subseasonal Prediction of East Asian Atmospheric Rivers <i>Asia-Oceania Geosciences Society, Pyeongchang, Korea</i> [Poster]	Jun 2024
Evaluation of Short-Term Prediction Skill of East Asian Summer Atmospheric Rivers <i>Korean Meteorological Society, Pusan, Korea</i> [Poster]	Apr 2023
Comparison of Atmospheric River Detection Algorithms in East Asia <i>Korean Meteorological Society, Pusan, Korea</i> [Poster]	Apr 2023
Synoptic Analysis and Numerical Experiments of Heavy Rainfall Events in Seoul, August 2022 <i>Korean Meteorological Society, Pusan, Korea</i> [Poster]	Apr 2023
MJO Diversity in CMIP6 Models <i>Korean Meteorological Society, Pusan, Korea</i> [Oral]	Apr 2023
The QBO and ENSO Influence on MJO Diversity <i>QBOi Workshop, Oxford, UK</i> [Poster]	Mar 2023

MJO Diversity in CMIP6 Models <i>AGU Fall Meeting, Chicago, USA</i> [Poster]	Dec 2022
MJO Diversity in CMIP6 Models <i>EGU General Assembly, Vienna, Austria</i> [Oral, virtual]	May 2022
MJO Diversity in CMIP6 Models <i>Korean Meteorological Society, Pusan, Korea</i> [Poster]	Apr 2022
Modeling Evidence of QBO–MJO Connection: A Case Study <i>Asia-Oceania Geosciences Society, Singapore</i> [Poster, virtual]	Aug 2021
Modeling Evidence of QBO–MJO Connection: A Case Study <i>Korean Meteorological Society, Gyeongju, Korea</i> [Oral, virtual]	Oct 2020
Numerical Simulation of QBO–MJO Connection <i>National Institute of Meteorological Sciences, Jeju, Korea</i> [Oral]	Feb 2020
Classification of Heat Wave Events in Seoul Using a Self-Organizing Map <i>National Institute of Meteorological Sciences, Jeju, Korea</i> [Oral, invited]	Feb 2020
Numerical Simulation of QBO–MJO Connection <i>Korean Meteorological Society, Gyeongju, Korea</i> [Poster]	Oct 2019
QBO–MJO Coupling in a Numerical Weather Prediction Model <i>Korean Meteorological Society, Daegu, Korea</i> [Poster]	May 2019
Classification of Korean Heatwaves: Characteristics and Related Synoptic Patterns <i>Korean Meteorological Society, Jeju, Korea</i> [Poster]	Oct 2018
Classification of Heat Wave Events in Seoul Using a Self-Organizing Map <i>Korean Meteorological Society, Seoul, Korea</i> [Poster]	Apr 2018

COLLABORATIVE PROJECTS

- **QUOCA** — Quasi-Biennial Oscillation and Ozone Chemistry Interactions in the Atmosphere (APARC), 2025–present
- **QBOi** — QBO–ENSO Experiment (APARC), 2022–present
- **Visiting collaborator**, Center for Advanced Data Assimilation and Predictability Techniques, The Pennsylvania State University (Prof. Fuqing Zhang), Oct 2018

PROFESSIONAL SERVICE

Peer Review

Nature Communications, Journal of Climate, Journal of Geophysical Research: Atmospheres, Climate Dynamics

Teaching (Teaching Assistant, Seoul National University)

- Large-Scale Dynamics of the Atmosphere (Spring 2022)
- Atmospheric Science Laboratory (Fall 2020)
- Weather Forecasting and Laboratory (Spring 2018)
- Student Teacher, Seoul National University Middle School (May 2017)
